PROFESSIONAL EXPERIENCE

Senior Software Engineer

Aayu Technologies 📅 05/2024 - Present 📍 Colombo, Sri Lanka

- Developed and maintained complex features, driving technical improvements and product stability.
- Contributed to fast-paced sprint cycles, meeting tight deadlines for production releases.
- Led knowledge-sharing sessions to onboard and mentor new team members.
- Delivered customer demos to showcase SaaS product capabilities.
- Provided in-depth technical support, resolving complex issues and ensuring customer satisfaction.

Software Engineer

Aayu Technologies 📅 01/2024 - 04/2024

- Developed features for the MFT and EDI Generator projects using Angular and Node.js. Reduced software errors by 25%, improving overall system reliability.

Associate Software Engineer

Aayu Technologies 📅 04/2023 - 12/2023

- Improved the UI/UX design of the MFT Generator project, enhancing user experience and navigation. Utilized design best practices to ensure intuitive and efficient workflows.
- Designed and implemented CI/CD pipelines using Bitbucket Pipelines for the AS2 Generator project. Streamlined the deployment process, increasing deployment frequency and efficiency.
- Enhanced the AS2 Gateway project by implementing solutions with Angular and Spring Boot. Decreased software errors by 15%, ensuring better product stability.

Associate Software Engineer

Virtusa 📅 04/2022 - 03/2023 📍 Colombo, Sri Lanka

- Completed 6 months of intensive training in Java, design patterns, and microservices, gaining practical knowledge applicable to enterprise application development.
- Developed a microservices application to manage fuel restocking for gas stations based on provider availability. Used Spring Boot, NestJS, Angular, ReactJS, Apache Kafka, and MySQL to create a scalable, efficient system.

Software Engineering Intern

Digital Pulz 📅 07/2021 - 01/2022 📍 Malabe, Sri Lanka

- Developed and enhanced React Native apps for clinical and veterinary use cases, enabling secure access to medical records and seamless pet appointment bookings. Integrated with AWS backend services to ensure reliability, usability, and timely delivery.

EDUCATION

Bachelor's in Software Engineering

SLIIT 📅 2018 - 2022

SUMMARY

Results-driven Senior Software Engineer with 3+ years of experience in full-stack development. Proven record in reducing system errors and improving deployment workflows in fast-paced SaaS environments.

SKILLS

Angular	React	Node JS	Java
Spring Boot	JavaScript	Docker	
AWS Services	MySQL	Firebase	
React Native	Flutter		

STRENGTHS

-  **Problem-Solving**
Resolved complex software issues in previous role delivering a 35% reduction in long-standing unresolved problems.
-  **Collaboration**
Collaborated effectively with cross-functional teams to achieve project goals
-  **Adaptability**
Quickly incorporated new software updates in all projects, ensuring minimal disruption to workflow and maintaining project schedules

CERTIFICATION

Oracle Certified Associate - Java SE 8 Programmer

Completed an associate level Java certification from Oracle.
